<b>3</b>	BYPASS/UPS switch
<b>4</b>	UPS input and output power connector
<b>5</b>	Output connector

# Mounting Options

# Rack-Mount Installation

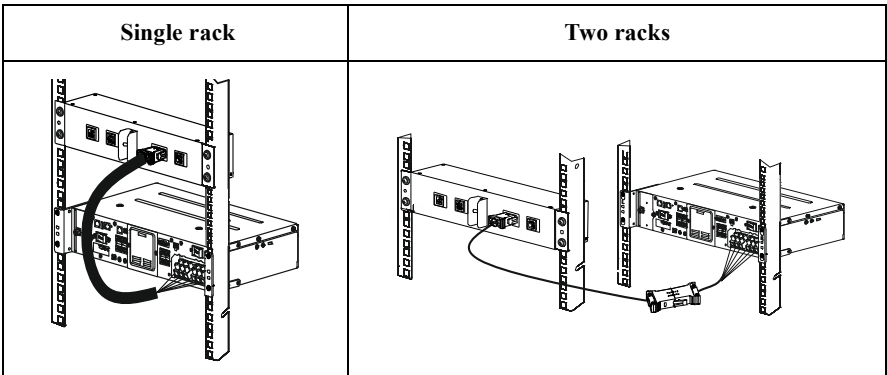

# UPS Input and Output Cable Connection

## SecureUPS and SBP mounting

Use UPS input and output two feet cable to connect the SBP with SecureUPS.

Connect the two feet cable with the seven feet cable, if extension is required. Use this to connect the SBP with the SecureUPS.

1. Keep the toggle switch in the **bypass** mode.
2. Connect one end of the utility input cable to utility and other end to SBP.
3. Connect one end of the output cable to load and other end to SBP.

4. Connect the UPS input and output two feet cable to SecureUPS. Ensure that line, neutral and ground cables of the input and output terminals are connected.
5. Connect the UPS input and output two feet cable to the SBP (if required use UPS input and output seven feet cable for extension).

## APC™ by Schneider Electric Worldwide Customer Support

Customer support for this or any other APC by Schneider Electric product is available at no charge in any of the following ways:

- Visit the APC by Schneider Electric Web site to access documents in the APC by Schneider Electric Knowledge Base and to submit customer support requests.
