

Components in the power circuit of a full service (200-600 Volts) Firetrol fire pump controller are warranted against failures due to a short circuit on the load side of the controller, either inside of the controller or internal to a connected, approved for fire pump use, Nidec Motor Corporation, US Electric Motors Brand Motor (referred to here as “US Electric Motors” or “USEM” motor) for 84 months from the date of installation or 90 months from date of shipment. Any repair will include all replacement parts and labor costs of installation. Power circuit components include the isolation switch, circuit breaker, current sensing devices, motor contactor(s) and power transfer switch. Connected devices, including, but not limited to, transformers, power wires, etc, external to the controller are not covered.

This limited warranty supersedes Firetrol’s standard limited warranty on the parts outlined above and applies only when the controller is used in conjunction with an approved for fire pump use, USEM motor. For all other components and terms not specifically outlined herein, the standard warranty applies (see Publication GF100-70).

A USEM UL approved Fire Pump Motor when used with a Firetrol controller, is warranted to be free from defects in workmanship and materials for 84 months from the date of installation, not to exceed 90 months from the date of shipment from USEM.

This limited warranty does not apply to any product that has been subject to misuse, misapplication, neglect (including without limitation, inadequate maintenance), accident, improper installation, modification, adjustment or repair. This constitutes Firetrol’s and USEM’s only warranty (other than Firetrol’s standard warranty which applies to controller parts not covered herein) in connection with this sale and is in lieu of all other warranties, expressed or implied, written or oral. THERE ARE NO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE THAT APPLY TO THIS SALE. No employee, agent, dealer or other person is authorized to give warranties on behalf of Firetrol or USEM, nor to assume for USEM or Firetrol any other liability in connection with its products.

USEM’s and Firetrol’s liability shall be limited exclusively to repairing or replacing any product found by USEM or Firetrol to be defective, or at USEM’s or Firetrol’s option, refunding the purchase price of its product. USEM motors shall be returned, freight prepaid, to the nearest USEM authorized service station or USEM factory. Firetrol’s controllers shall be returned to Firetrol’s Factory, or, at Firetrol’s option, Firetrol will make repairs at the customer’s facilities. It is agreed that such replacement, repair or refund be the sole and exclusive remedy available from USEM and Firetrol. USEM AND FIRETROL SHALL NOT BE LIABLE FOR DAMAGES OF ANY SORT BEYOND THESE EXCLUSIVE REMEDIES, INCLUDING SPECIAL INCIDENTAL AND CONSEQUENTIAL DAMAGES, REGARDLESS OF WHETHER ANY CLAIM IS BASED UPON CONTRACT, NEGLIGENCE, STRICT LIABILITY, TORT, WARRANTY, OR ANY OTHER BASIS. The repair or replacement of the product or the refund of the purchase price, at USEM’s or Firetrol’s option, constitutes fulfillment of all liabilities of USEM and Firetrol to the buyer for defective products.
